“Making an Impact” July 8-11 2018, Valencia

Do you work in a consultancy, business or public sector organisation, applying O.R. or analytics to help your organisation or its customers operate better?

Are you keen to share your experiences, learn from, and build networks with, other practitioners across Europe and globally?

Then put “EURO2018, July 8-11 2018, Valencia” in your diary now.

EURO2018 is Europe’s biggest conference of OR/analytics professionals, academic and practitioners. Its “Making an Impact” sessions will be packed with opportunities for practitioners to:

- Explore the challenges every practitioner faces, and share solutions
- Try out new techniques – are they any good for you
- See case studies showcasing important applications
- Exchange ideas and expertise with people in similar fields
- Meet leading academics and discover what they can do for you – and what you can do for them
- Build your network amongst likeminded professionals

Plans include: case studies, workshops, seminars, discussion panels, 1-1 mentoring, careers fair and more. To contribute, or simply to keep in touch as we develop the programme, please visit euro2018valencia.com/making-an-impact/ or contact: mai_euro2018valencia@upv.es

“Making an Impact” is organised by the EURO Working Group on Practice of OR, the network for O.R. practitioners in industry, consultancy, government and beyond. All practitioners are welcome to be a part of this group, which aims to enable O.R. professionals to have more impact on the outside world, by helping them find solutions to typical practical challenges, gain understanding of tools/techniques they haven’t used before, build their networks, and learn from others in order to inspire and expand their own practice.
